

Scott Olsen is the Research Operations Manager of the Genome Sequencing Facility at St. Jude Children's Research Hospital in Memphis, TN. Scott received his MS in Biology from the University of Mississippi in 1997. Following graduation Scott was a research laboratory technician at the VA Medical Center in Memphis where he assisted investigations of cancer chemotherapy agents targeting topoisomerase II. In 2000 he was recruited to St. Jude Children's Research Hospital to manage the oligonucleotide synthesis service in the Hartwell Center for Bioinformatics and Biotechnology. In 2008 he became a founding member of the Center's Genome Sequencing Facility and assumed management responsibilities for the Facility in 2010. He has experience with multiple second and third generation sequencing platforms and library preparations. He has also worked extensively with genomics QA/QC instrumentation and laboratory automation systems.
