

Thayumanasamy "Soma" Sundaram is an FSU Distinguished University Scholar and the Director of the Macromolecular X-Ray Crystallography Facility at the Institute of Molecular Biophysics at Florida State University. He joined Florida State University in 1993. Currently, he is serving as the President-Elect of the Association of Biomolecular Resource Facilities (ABRF) and during 2019-21 he served as the President of the Southeastern Association of Shared Resources (SEASR), a chapter of ABRF.

*I will speak during the Welcome and Opening Remarks section and will talk about "ABRF: Defining Excellence in Shared Resources".*
