

Veronica A. Brown is the Lab Manager at the Genomics Core for the University of Tennessee, Knoxville, where she has worked in various capacities for over 20 years.

Veronica received her Master's degree from the University of Tennessee in Ecology and Evolutionary Biology, using molecular tools to study the diet of bats. Her Core focuses on library preps and sequencing on Illumina instruments. Veronica also established and continues to

teach a hands-on class on Next Generation sequencing techniques and values the teaching and training her Core provides the University.
