

Bia Whipp

Bia Whipp is the Data Manager for the All of Us CTSA/PACER Community Network (CPCN) at the University of Florida under the lab of Dr. Linda Cottler. In this role, she supports data integration and provides technical assistance to investigators using the National Institutes of Health's *All of Us* Research Program.

Bia leads the development of a step-by-step curriculum that introduces researchers to the Researcher Workbench's analytic environment, data modules, and reproducible workflows. Her background spans statistics, data visualization, and research informatics. She earned a Bachelor of Science (BS) in Mathematics from California State University, Long Beach.

CTSA = Clinical and Translational Science Award; PACER = Partners for the Advancement of Community Engaged Research
